

Colonial Castings

colonial castings

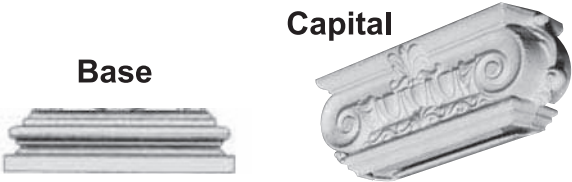

CAST COLUMNS

Cast ornate columns were traditionally a highlight of porches and verandahs of the 19th Century. Their elegant designs framed the windows and entrances of grand homes. Colonial Castings has used modern technology to enhance the value of these beautiful columns by adding the feature of being load bearing. The Macquarie and Richmond columns are also designed to meet the requirements of traditional butt-joining of frieze whilst retaining their load bearing qualities.

Columns come in either 2.4m or 2.75m high allowing for precise adjustment on site. All columns come complete with the appropriate fixing kits which allows fixing to concrete, timber or metal.

	Code	Size		Height	
Macquarie	CM15	200mm	8 "	2.4m	94.5 "
	CM16	200mm	8 "	2.75m	108.25 "
Richmond	CR13	200mm	8 "	2.4m	94.5 "
	CR14	200mm	8 "	2.75m	108.25 "

Note: Columns do NOT include the corners.

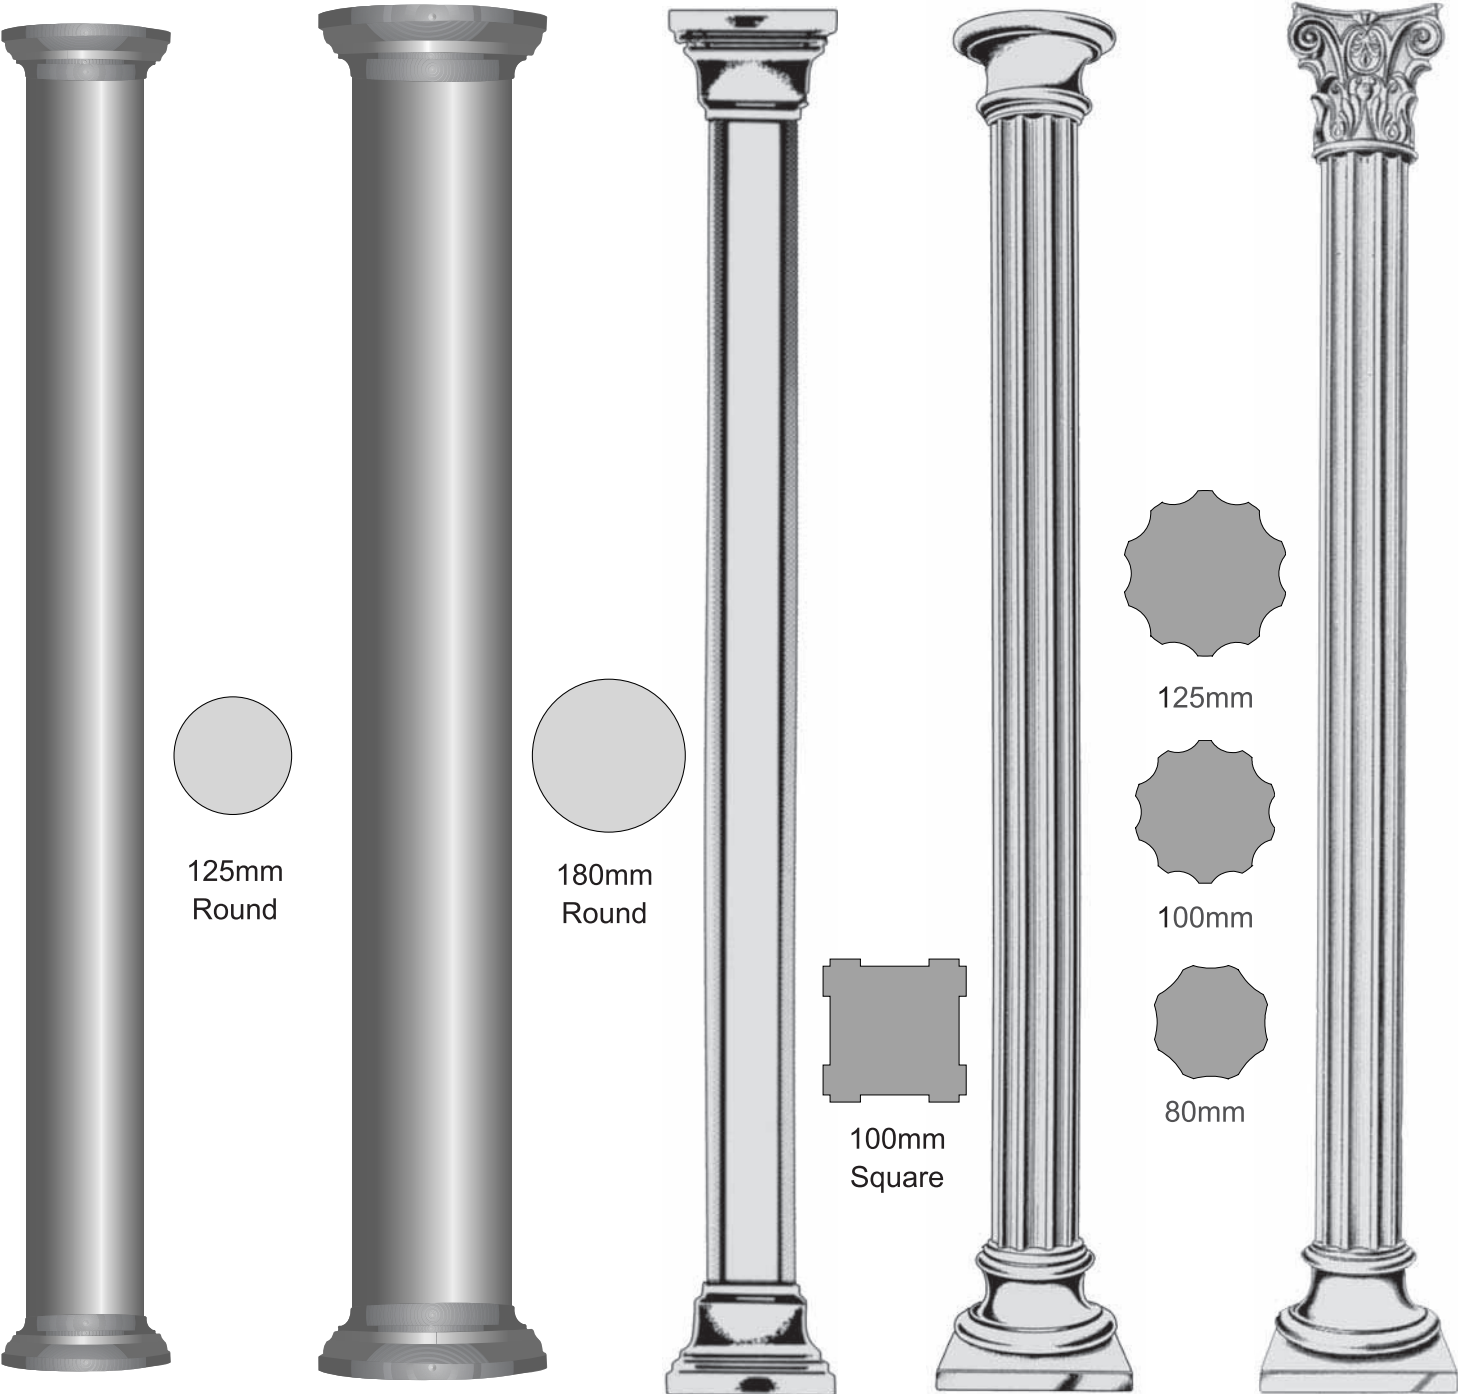

(a) Nominate the corners to be used when ordering Victorian columns

(b) Colonial Castings offers you the opportunity to choose whether you would like the frieze to be straight or corner, in which case you would have to indicate your choice when ordering.

LOAD BEARING COLUMNS

Note: Richmond & Macquarie columns are NOT recommended over 2.75m

CG1

Colonial Castings gates are all traditional designs, cast in strong high grade aluminium.

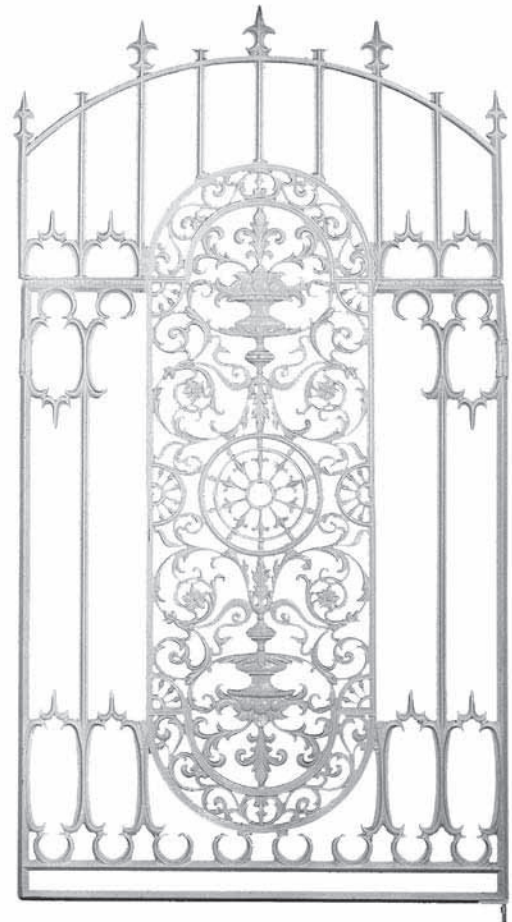

The gates will never rust and when coated with our electrostatic polyester powder require virtually no maintenance.

The gates are sold as single units which can easily be double or triple gates. The gates can be swung in either direction and come complete with self-closing no maintenance hinges and a gate latch.

Dimensions: Cast single gates are 1600mm (5'3") and suit openings 900mm (2'11 $\frac{1}{2}$ ") wide. Double gates suit a 1800mm (5'11").
